

# In Your Stride

*Progression to Solution*

## **Business Accessibility Consultancy**

### **How would your business benefit from Consultancy on Accessibility?**

In Your Stride specialise in providing business focussed solutions on disability in the hospitality industry. We have considerable experience in both the fields of business and disability enabling us to knit the two together in a practical way. We guide businesses in what they do and do not need to do, helping improve services to your customers.

We look at the market you operate in, your customer base, your location and premises. Taking all of these into account we help you determine a strategy on inclusivity and diversity that takes into account the provisions of the Disability Discrimination Act, in a manner sympathetic with your business.

There are legal imperatives, and you will inevitably have to make changes as a result of your obligations under the DDA. We help you determine what these are, and how they can be integrated in your business to best advantage for the benefit of all of your guests.

### **Providing a unique insight into the business of disability**

We are able to work with you at a strategic level to determine a suitable way forward, and then in more detail with your other professionals such as property managers, architects, designers and lawyers. We look at your Policies, Procedures and Practices, advise on legal requirements, and examine your business imperatives and relevant best practice, tailoring our service to your business philosophy. We also discuss training and employment as these are core elements of providing an inclusive service to all.

We regularly work with architects and designers as part of our Planning Service. Assessing drawings and discussing solutions at the earliest phase of a project to integrate them in as cost effective a manner as is possible, leading to good unobtrusive design adjustments for all.

### **How do I commission In Your Stride Bespoke Accessibility Consultancy?**

We offer consultancy tailored to your business. To discuss your requirements contact us at:
